HITCHES BEING ENCOUNTERED ON THE CURRENT NYSC STUDENTS DASH BOARD.

The attention of the Management has been drawn to the unwarranted rumour, to our greatest dismay circulating that Benue State Polytechnic Ugbokolo is indebted to the NYSC and is under suspension for five (5) years, hence the reason for non-mobilization of our graduates into the ongoing (current) Batch B exercise.

Management is seriously frowning at this mis-information which is intended to blackmail her good reputation over the years and cause hick-ups on the stability and peace being enjoyed at this critical moment

Please, note that no institution in Nigeria pays money to NYSC for mobilization, hence those who are the founders of this dangerous rumour should retract and redefine their moves towards helping the Polytechnic to succeed.

Management wish to assure all graduates of the Polytechnic that the present difficulty being encountered on the portal is vigorously being addressed between Management and NYSC Secretariat and a positive outcome is expected soon.

Thank you for your expected favourable cooperation as we assure you of our Best Services always.
